

FindWay Hydraulic Source Co.,Ltd.

Chinese Leader in Piston Pumps & Motors Manufacturing

Product Classification

01 Fixed Piston Pump

03 Piston Motor

02 Variable Piston Pump

Your reasonable supplier of Piston Pumps & Motors

Findway A10VSO/31(32) open loop piston pump has proven itself in many Mobile applications. Axial piston swashplate design, Low noise levels, Large variety of controls, short respond times and pressure ratings up to 4000 psi makes this pump strong. Our piston pump A10VSO is easily serviceable and most all components are replaceable and stocked by Findway hydraulic Source. These units and parts are fit, form and function replacements for Rexroth A10VSO series piston pumps.

Axial Piston Variable Hydraulic Pump

A10V(S)O 31/32 Series Axial Piston Variable Hydraulic Pump
Pump/Motors were made in China, with higher quality and competitive Price, also faster delivery Time. All of the function and details mounting dimension as the same as Original Rexroth Brand.

Model Size: 18, 28, 45, 71, 100, 140 cc

A10V(S)O- 31(32) Series Pump

CHARACTERISTIC:

- 1 Swash plate design axial variable piston pump used in open circuit.
- 2 Continuous work pressures can reach 280bar; the highest instantaneous work pressure can reach 350bar.
- 3 The flow is directly proportional to the drive rotate speed and the displacement, and can make stepless variable come true by adjusting the obliquity of the swash plate.
- 4 There are various of control type such as DR, DFR, DFLR etc. and the control response is very fast.
- 5 Low noises level, High efficiency, High reliability and long time service life.
- 6 Small volume, High power density.
- 7 Excellent oil absorbency.
- 8 Axial and radial loading of drive shaft possible
- 9 SAE and ISO mounting flange
